

Don't be left stranded by HMRC, let us be your lifeboat

10 reasons to take action

1. Random targeting

HMRC can choose anyone for an enquiry it's not always about wrongdoing.

2. Increasing enquiries

HMRC enquiries jumped by 21% last year, generating an extra £34 billion in tax from non-compliance.

3. More resources

The government's commitment of £555 million a year means HMRC will likely ramp up further enquiries.

4. Advanced technology

Over 80% of enquiries start with HMRC's sophisticated database, Connect, which analyses over 55 billion lines of data, including social media, DVLA records, and bank accounts.

5. Detailed questioning

If selected, HMRC may review all your records and ask for detailed explanations of specific transactions, potentially leading to additional tax assessments.

6. Expert representation

We provide the best possible defence against HMRC, but our usual accountancy fees don't cover enquiry support, which can get complicated and costly.

7. Affordable protection

For a small fee, our Tax Fee Protection will protect against costs incurred by us dealing with an HMRC enquiry. We'll handle all communications with HMRC and contest any findings at no extra charge to you*.

8. Peace of mind

With our protection, you can rest easy knowing that we're here to defend you at no added cost* if HMRC targets you.

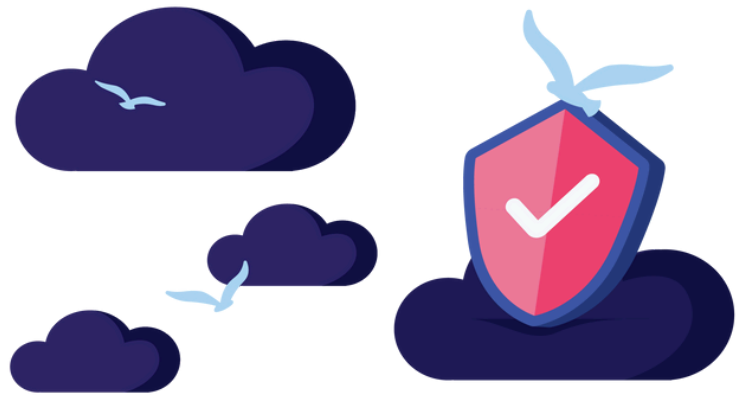

9. Bonus support

Enjoy complimentary access to our Business Support Advice Lines for advice on:

Employment Law: Manage performance, handle redundancies, calculate holiday entitlements, and more.

Health & Safety: Get guidance on risk assessments, fire safety, and first aid.

Legal Issues: Access support for any UK commercial or personal legal matters.

10. Act now

We strongly encourage you to protect against the risk of an HMRC enquiry.

"HMRC activity has increased and become more focused recently, and with the Labour government pledging an extra £555 million annually to bolster HMRC resources, this trend isn't slowing down."

Director,
Glazers
