Shielding you from the unplanned cost of an HMRC enquiry

HMRC use a sophisticated database called Connect to start more than 80% of enquiries. Subscribing to our Tax Fee Protection will mean that if you are targeted, we can represent you at no extra cost . . . ensuring you get the best possible defence.

Reasons to Take Action

01 HMRC enquiries can be random, anyone can be targeted, even if you have done nothing wrong.

02 Last year the number of HMRC enquiries increased by 21% and HMRC generated an additional £34bn in tax by targeting non-compliance.

03 The Labour government have pledged to invest £555M a year in additional HMRC resources and so the increase in HMRC enquiries looks set to continue.

04 HMRC use a sophisticated database called Connect to start more than 80% of enquiries. Connect analyse over 55 billion lines of data, including social media accounts, DVLA records, land registry and bank accounts.

05 If HMRC select you for enquiry they will potentially look at all your books and records and/or ask for more detail on specific transactions and may then raise an assessment for additional tax due.

06 We can represent you assuring the best possible defence against HMRC. However, our normal accountancy fees do not include the cost of dealing with enquiries, which can be costly and complex, even if no additional tax becomes due.

07 For a relatively low cost our Tax Fee Protection protects against fees we may incur dealing with HMRC enquiries. We will manage the whole conversation with the taxman and challenge any findings at no cost to yourself.

08 The protection gives you the comfort of knowing that we can defend you at no extra cost if you fall under HMRC's spotlight.

09 This protection includes complimentary telephone access to Business Support Advice Lines.

10 We strongly encourage you to protect against the risk of an HMRC enquiry.
